KYIV CHAMBER OF COMMERCE AND INDUSTRY

**HOLD THE ECONOMIC
FRONT TOGETHER WITH
BUSINESS!**

**CHOOSE THE BEST –
PARTNERSHIP WITH
THE KYIV CCI!**

**STRONG ECONOMY –
KEY TO THE VICTORY!**

Kyiv, the capital of Ukraine, is an industrial, commercial, financial, educational, scientific and cultural center where the central government authorities and many other institutions are concentrated.

It is also the seat for the Kyiv Chamber of Commerce and Industry performing its core activities within the capital region.

The Kyiv Chamber of Commerce and Industry is established and exists in accordance with the Law "On Chambers of Commerce and Industry in Ukraine" adopted by the Verkhovna Rada of Ukraine in December 1997 and functions together with other chambers of commerce and industry in the country. The Kyiv CCI is a non-government institution operating on the principles of complete economic self-repayment and focusing on assistance to the development of the national economy and its integration into

the world system, consolidation of market mechanisms and providing hands-on support to enterprises of all forms of ownership of the Kyiv Region.

The range of activities carrying out by the Kyiv Chamber is very broad and is aimed at establishing business contacts between Ukrainian and foreign organizations, developing new forms of cooperation, participating in international programs and holding business meetings, business missions, conferences and presentations.

The Kyiv Chamber of Commerce and Industry will continue focusing on the development of the business potential of Kyiv which inevitably will lead to its transformation into a business and financial center to take the rightful place among European cities. Only when consolidated we could stand up to this challenge and become the winner. We feel confident about the selected roadmap and feel positive about the future of Ukraine.

” *We believe that transformations occurring in Ukraine, specifically in its capital region, and upward favourable economic trends will initiate joint projects and make Kyiv attractive for effective business contacts.*

**ZASULSKYI
Mykola**

President of the Kyiv
Chamber of Commerce
and Industry

Dear Chamber members, entrepreneurs and partners.

Today Ukraine has taken the harder times in its history. We all feel the effects of this horrific war embracing the territory of our country. All this poses major problems for everyone, including the business community. I would like to express my sincere gratitude to all entrepreneurs continuing their business under such conditions and contributing to the stability of the national economy. All of you show self-possession and courage.

The Kyiv Chamber of Commerce and Industry has always supported business. We managed to stand out owing to international partners, Chamber members and the commitment of the whole staff. And what is important,

we live together with our country, front and render all-kind support to the Armed Forces of Ukraine, the people suffered and the hospitals.

We feel confident that such critical conditions shape the spirit of the business community. Our entrepreneurs demonstrated huge self-possession while overcoming difficulties and achieving success in business.

What's next? The rest is the victory and rehabilitation of Ukraine. We should put all our possible efforts for this purpose. With the victory each of us will have the future and each family will gain prosperity and happiness.

**SIZIKOVA
Liudmyla**

First
Vice-President
of the Kyiv CCI

This is my 20-year experience working within Ukrainian CCI and specifically in the Kyiv CCI! This is a very interesting and fruitful period of my life!

During this period new services for business have been improved and introduced, hundreds of meetings to support entrepreneurs from the Kyiv Region have been conducted, dozens of meetings with national manufacturers have been held and a number of companies have been attended to search solutions for areas of concern. Furthermore, there is a many-year collaboration in the projects funded by Deutsche Gesellschaft für Internationale Zusammenarbeit "GIZ Ukraina", mediation under the European standards for settlement of economic disputes as an alternative to state courts has been put into practice. It has been already 6 years when KCCI Women Entrepreneur Committee was established and developed rapidly which within the projects of the Chamber of Skilled Crafts of Koblenz and under the sponsorship of the German Government collaborates with Western Balkan Women Entrepreneur Associations. All these are only the facets with deeper context inside.

My work motivates to become better, inspires and brings happiness and the best emotions! I feel proud of the Kyiv CCI and its members!

Join our community, Ladies and Gentlemen!

**MAISTRENKO
