Let the Business work and we will take care of it!

Choose the best - a partnership with the Kyiv Chamber of Commerce and Industry!

Your business comfort is our job!

“We believe the changes taking place in Ukraine and particularly in the metropolitan region, positive and favourable economic dynamics will initiate interesting joint projects and will do Kyiv attractive for productive business contacts.”

Kyiv, the capital of Ukraine, is an industrial, commercial, financial, educational, scientific and a cultural center where the central government authorities and many institutions are located.

Here there is also located the Kyiv Chamber of Commerce and Industry carrying out the main activity within the metropolitan region.

The Kyiv Chamber of Commerce and Industry is found and operates in accordance with the Law “On Chambers of Commerce and Industry in Ukraine” adopted by the Verkhovna Rada of Ukraine in December 1997 and develops together with the network of chambers in our state.

The Kyiv CCI is a non-governmental organization operating on the principles of complete economic self-repayment and is aimed at promoting the development of the national economy and its integration into the world system, strengthening of market mechanisms and providing practical assistance to enterprises of all forms of ownership of the Kyiv Region.

The range of activities carrying out by the metropolitan Chamber is very wide and is focused on establishing business contacts between Ukrainian and foreign organizations, development of new forms of cooperation, participation in implementation of international programs and holding business meetings, business missions, conferences and presentations.

The Kyiv Chamber of Commerce and Industry consistently directs its activities toward developing business potential of Kyiv that facilitates its steady transformation into a business and financial center which is capable to occupy a decent place among European cities.

“We are convinced of the fidelity of our chosen guidelines and we, being working for the business, face the future of Ukraine.”

Zasulskyi Mykola
President of the KCCI
The statements that the Chambers of Commerce and Industry of the world including the Ukrainian system of Chambers of Commerce and Industry and the Kyiv Chamber of Commerce and Industry have a significant advantage over other business associations, namely, almost 400-years historical and traditional option - the association of entrepreneurs and industrialists to protect and defend their interests. That is precisely what makes it worthwhile to appreciate the Chamber’s image, its business reputation, to consider our Chamber’s members the greatest value and their interests the most important. The Chamber advances, becomes potentially attractive, more professional and more influential.

Our ship is under sails already filled with wind! Join us!

The Kyiv Chamber of Commerce is constantly improving its work and improving cooperation with the Chamber’s members, our efforts are aimed at satisfying the needs of our partners, the development of business climate in the city of Kyiv. The Chamber is a bridge between government and business, it takes a direct part in the implementation of city programs for support and development of entrepreneurship in Kyiv – “The Best Exporter of the Year”, “Metropolitan Quality Standard”.

Business Support Center which was established by the Kyiv Chamber of Commerce and Industry and the European Bank for Reconstruction and Development (EBRD) within the framework of EU4 Business Initiative started its activity. SME’s Support Program is being implemented with the assistance of EBRD and the European Union.

KCCI realizes its aim through:
► wording of Business Agenda - Strategies of regional economic development for local authorities;
► representation and advocacy of the Chamber’s members;
► cooperation with business associations and membership base development;
► KCCI participation in public Councils and committees at central and local authorities;
► introduction of modern approaches to business training and retraining for entrepreneurship;
► provision of necessary and innovative services;
► involvement of foreign investment projects in the region, work with donors and grants;
► assistance in increasing the export potential of regional business;
► it is natural that the Chamber performs the arbitrary function.

Chamber’s mission:
By integrating the metropolitan business, KCCI promotes the development of entrepreneurship, innovation, investment, financial and consumer services in Kyiv, creates conditions for increasing its competitiveness and integration into the markets of Europe and the World, ensures representation of business interests before the authorities at the national and regional levels, provides comprehensive services for the development of entrepreneurship and foreign trade activities.
The history of the Kyiv CCI is a world tradition and practice of the development of chamber movement which already exist more than 400 years since the Marseilles Chamber was established in France.

Stages of formation and development of the modern KCCI are rooted in or related to the activities of merchant clubs, stock exchange committees, various industrial assemblies and associations.
